

Bi-State Citizen Advisory Committee

APPLICATION FORM

Columbia River Crossing (CRC) will convene a Bi-State Citizen Advisory Committee to support corridor and local improvements as the project advances final design and pre-construction plans. The Bi-state Citizen Advisory Committee will be composed of approximately 30 community members with 12-15 members selected from each state. Members will be responsible for advising the CRC staff, representing stakeholder organizations, and communicating routinely with their constituencies. Each committee member is expected to bring a unique perspective that must be balanced with a community-wide vision.

CRC engages advisory committees to supplement the project's public outreach and decision-making processes. The project is moving from preliminary planning to refining designs for the corridor, bridge and local elements and pre-construction planning. With this shift, it is increasingly important to obtain input on design details from those with diverse perspectives in a coordinated, timely and cost effective manner.

Your brief responses to the following questions will help us make sure that diverse interests are represented on the committee.
